## CAPABILITIES

Our Capabilities

- ▶ Mold bases milling up to 3000x2500
- ▶ Hi-precision machining parts
  - ▶ Deep drilling
  - ▶ Surface grinding up to 3000x2500
  - ▶ CNC turning
  - ▶ Cylindrical Grinding
  - ▶ CNC milling parts
  - ▶ Custom mold components
  - ▶ Custom aluminum parts

## SERVICES

We can provide the following services

- ▶ Engineering parts
- ▶ Plastic Flow Analysis
- ▶ Mold Drawings
- ▶ Milling large and small parts
- ▶ Drilling small and large pieces
- ▶ Measuring reports

*Your Project is Our Project...*

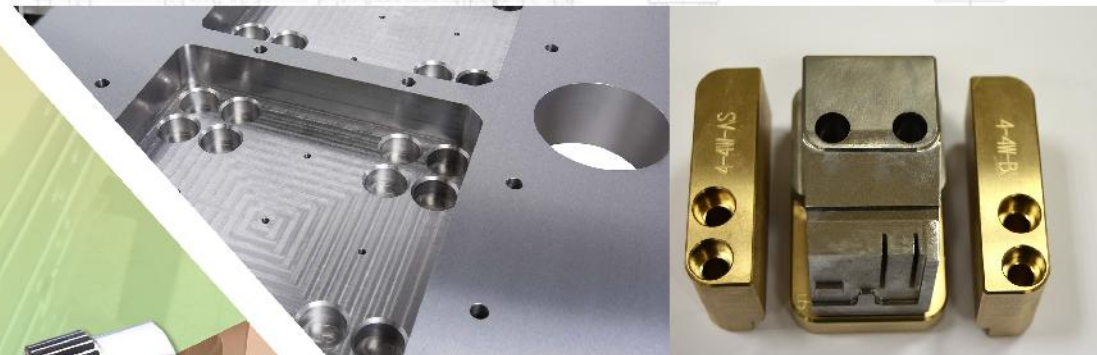

*We offer you an accurate and cost-effective parts for your project.*

## Mold Bases

We are specialist in the manufacture of small and large custom mold bases. Mold bases and plates are manufactured with the highest quality materials on the most advanced, precision equipment in the industry.

High-quality mold bases and plates available in unlimited configurations to meet every application need.

## WMS

Our expertise allows us to work closely with our customers, from design to the finished product.

Our demand on quality is very high.

We collaborate with our customers with the goal of, together, achieve the best product quality with the maximum speed production.
